Document Storage Boxes

Keep important manuals and papers secure and readily available to users while protecting them from moisture and dirt with a Document Storage Box. Weather resistant polyethylene case is durable and rustproof. Each has a smooth area to add you own labels for easy identification of contents or purchase optional label pack. Bright red color is highly visible.

All sizes come with heavy-duty double sided tape for easy installation. Four built-in mounting holes on medium and large sized units provide added mounting options. Affix to machinery, cabinets, equipment, walls or anywhere you need protected document storage. Large size accepts MSDS binder for organized, easy access – indoors or out. Both medium and large sized units accept padlock when security is a concern.

Medium sized units are either top opening (flip top) or front opening with easy snap latches. Front opening units can be used vertically or horizontally.

Heavy-duty double sided tape is provided for mounting on surfaces that should not be penetrated by hardware such as safety cabinets.
