

# CYLINDER STORAGE LOCKERS

**The no rust solution to safely securing LPG and compressed gas cylinders**

**Gives an organised look to expanded multi-locker storage!**

Cylinder Lockers from PBA offer superior features that make these units extremely durable and easy-to-use.

Constructed of 100% welded aluminum they will not rust, corrode or discolour. PBA's expanded 7 mm thick metal panels are the strongest in the industry offering additional resistance to tampering. Welded security lug on front panel door accepts a padlock (not included) for extra security. Heavier gauge aluminum mesh and extruded (not bent) frame add rigidity. All models have an exclusive solid aluminum roof panel that slants toward the back to shed water and ice. Eleven modular styles provide an efficient, attractive solution to expanded, multi-locker storage.

## CYLINDER LOCKERS FOR COMPRESSED GAS

### 11 Modular styles to choose from!

Vertical 2 Cylinders  
W760 X H960 X D415
